

# Oxygenation, High Levels of Oxygen, slows cancer growth

## Proper Hyperbaric Oxygenation

Breathing 100 percent medical grade oxygen at about 3 atmospheric pressure inside a **Medical Class** hyperbaric chamber

positively amplifies chemo and radiation therapy effectiveness

---  
Around the world, Hospitals use Hyperbaric to deliver substantially increased oxygen to all body tissues.

---  
Oxygen dramatically improves cell health thereby reducing cancer targets.

---  
Worldwide, high oxygen levels are well-known to improve the outcome of other concurrent therapies and to minimize side effects and complications of Chemo/Radiation therapy.

We put the O's in YOU

## CANCER RECOVERY

### How is oxygen provided?

For your treatment session, you comfortably lay inside a see-through chamber while either napping for about 1 ½ hours or being entertained by chosen music or movie.

Chamber air is gradually replaced with **100% Oxygen and pressurized to about 3 atmospheres:** (bolded text is the definition of hyperbaric).

As pressure increases, most report a slight and temporary "fullness" in their ears.

After ten to twenty sessions, within a two or four-week period (respectively), capillary and nerve regeneration as well as organ repair will be substantial.

*"I would recommend this therapy as a preventive procedure and also as a direct or indirect benefit for most medical conditions. I found no harmful side effects whatsoever. I have more energy now, less pain and my mind is more clear.*

*Thank you to the whole staff and God's blessings to them in this important work?"*

*A. W., New Westminster*

### Is the session safe?

**YES!** Both the chamber and session environment are **absolutely safe.**

The chamber is **Health CANADA certified** as a **Medical Device:** the highest standards.

Also, before and during your session **medically trained and certified staff** ensure your safety and comfort.

## CANCER RECOVERY

## NATURAL OXYGEN THERAPY

## Stay Well Get Well

# HEATHUP

HealthUp Oxygenation Clinics

# Hyperbaric Oxygenation is essential and natural cancer therapy

# HEALTHUP OXYGENATION

*Relieve pain with oxygenation .... naturally!*

## Oxygen Fights Cancer

Malignancies easily thrive in poorly oxygenated tissue. Introducing high levels of oxygen immediately fortifies body tissues and the immune system thereby limiting cancer growth.

## Inflammation

Oxygen is the natural and powerful anti-inflammatory medication used as a natural cancer therapy.

## Oxygen strengthens!

Oxygen is the critical component all body systems use to mobilize defense against disease.

Oxygen also enhances the chemical reactivity of pharmaceutical and homeopathic medications.

## Infection

High concentration of oxygen destroys all bacteria. Oxygen also improves white blood cells function of bacteria elimination and strengthens the immune system.

## Oxygen improves energy

All body tissues from cells to organs rely exclusively on oxygen to fuel their life giving metabolic processes. Tissues thrive in higher oxygen levels and immediately respond by not only promoting improved nutrient exchange but also regenerating healthy replacements. Additionally, oxygen is the only natural blood cleaner.

Thus more energy and a sense of well-being

*The goal of Hyperbaric Oxygenation and Neuro-rehabilitation is to get you back to your normal lifestyle as soon as possible.*

*Oxygen Therapy: Comfort inside a hyperbaric chamber*

## Pain

Pain is initiated by many factors: poor oxygenation, poor blood supply, infection, inflammation and swelling. Oxygen resolves those issues: typically in 10 to 20 sessions.

## Natural Choice Oxygen

Oxygenation or the delivery of high levels of oxygen to tissues additionally enhances other healthy lifestyle choices. Good food selections are important but only in conjunction with effective nutrient absorption and distribution.

Oxygenation not only enables superior absorption but also healthy delivery circulation pathways. Oxygen additionally provides natural organ cleansing and rejuvenation.

## Stem cell increase?

I know increased numbers of stem cells enhance tissue repair. Is it possible to increase stem cell production? Current research confirms a single Hyperbaric session can double stem cell count whereas 20 sessions can increase count by up to eight times.

**Resultantly, that places Hyperbaric Therapy as the most natural, safe and economic stem cell therapy.**
